Customer Reviews

About 7 months after quad by pass surgery I was having a problem with shortness of breath when I just walked. Answer was possible stints or more surgery. Heard about chelation and investigated it through the American College for the Advancement in Medicine. Web site ACAM.com. They are the only organization in the US that train and certify doctors to do chelation therapy. I have completed the 30 week program and am very happy to say I can do everything I was doing before the onset of the initial problem. If you have been told you must have by-pass surgery, explore the ACAM web site to locate a certified doctor in your area and set an appointment and interview the doctor so you at least understand that you have a choice besides just letting them cut you open.

I bought the book only for the chapter on chelation at home. It gives a lot of practical information about foods and supplements.

I think it's good but probably outdated--great for someone who wants to read this in addition to more recent material.

Very informing on how chelation was made and helps.
