Customer Reviews

Glad I did not pay for this. Total waste. It was repetitive, and had very limited fiber counts. The "book" (I think it was 46 pages) said the same thing over and over. Eat fiber for heart health, weight loss, etc. Then, they repeated the same statements multiple times as if they were trying to pad the thing and make it longer.

Can't go wrong with the price. I purchased it to use as a reference guide since I am trying to eat less sugar, more low glycemic foods and more fiber.

Really, this was a lot of stuff that I already knew but it's nice having it all in one place (as far as fiber-rich foods).

It appears to be written by someone who NEVER cooks, and only prints what they read. If I'm mistaken they have a poor way of illustrating with words. I would not recommend to my friends.
