The Cornered Cat: A Woman's Guide To Concealed Carry

Synopsis

The Cornered Cat is the ultimate resource for women who choose to carry a firearm for self defense. It covers everything from cleaning a pistol to methods of carry. It tells women everything they ever wanted to know about how to carry a firearm for self defense. The Cornered Cat is all about women that have chosen or are considering choosing firearms for self defense, sport, or just wanting to understand more about what their menfolk find so fascinating. This book contains a wealth of information presented in Kathy's warm and often humorous style. She tackles the serious considerations of using deadly force in defense of oneself and loved ones in a thought-provoking, non-judgmental, "between girlfriends" prose that is neither threatening nor sugar-coated, just very real.

Customer Reviews

In my opinion, this book is not just a helpful book. It's a book every woman absolutely should read, whether she carries already, is just thinking about it, is mildly curious about it, is deciding about it - or, even, opposes it. The author discusses the what, how, when, where, and why in great educational detail but she is not preachy. She will neither put you to sleep, nor scare you to death. She simply 'talks', as she might if we were enjoying a cup of coffee together and I asked her questions. This is NOT a book with an agenda to convert everyone to carrying. Kathy Jackson simply explains why she carries, how it is done, and what to know first as well as later, but does not even slightly disparage people who do not. I go so far as to say even those opposed to women carrying - or carrying by anyone - should read it. How can you debate an issue if you don't understand the topic and are not knowledgeable of your opposition? It's that important a topic today.

We all need to be knowledgeable about whatever it is we support - or oppose - or we are not credible. She talks about how CCW is very different for women than for men. -- Our bodies are shaped in ways that make carrying more challenging. -- How do women carry and still look stylish - this is important to most of us. -- What about curvy women? Women with big breasts? -- If you carry it, how do you go to the bathroom with it? Our toileting methods are considerably different than our male counterparts. -- What should you know ahead of time about legal issues if you use a weapon, or even pull it? -- The emotional issues after a fight? -- How do you choose the right weapon for your situation? -- What is the difference between a pistol and revolver?
