The "SAT Prep Black Book" gives you unique, effective SAT strategies from Mike Barrett, an SAT tutor with clients all over the globe who pay him hundreds of dollars an hour for phone tutoring. The Black Book is a must-have, whether you need to make a perfect 2400 to be competitive at an Ivy, score a 450 in each section to claim a sports scholarship, or anything in between. The Black Book works best when used with the authentic SAT questions in the "Blue Book," which is the College Board's Official SAT Study Guide. The Black Book shows you how to beat the SAT, while the Blue Book gives you real SAT questions to practice with. (The SAT Prep Black Book has no affiliation with the College Board.) The Black Book and the Blue Book are all you need to get your best possible SAT score. The Black Book is the ideal SAT book for 3 major reasons: It actually works, making it unique in the SAT prep field. There are no lists of "SAT vocab" to memorize or anything like that. Instead, you'll exploit design flaws in the SAT, using its own "SAT tricks" against it. The Black Book contains 250+ solutions for real SAT questions from the Blue Book, so you know it actually works. (You'll need the 2nd edition of the Blue Book to use these solutions.) The Black Book is a clear, concise roadmap to the SAT. (See the table of contents below). It explains exactly how every SAT question works, and how to beat it in the least time possible. ## Customer Reviews

If you are really serious about Passing the SAT with a 2000 or higher, this is the book. A summary of what you are getting: Confidence, because it takes away all the uncertainties from the SAT; Strategies, knowing exactly how to approach the questions; Knowledge related to the type of questions and their patterns. Confidence: The Math Tool Box for example reviews every single subject that might appear in the Test. The author explains every concept clearly. Besides he goes through a whole section using not only the concepts in the tool box, he also picks the "most difficult questions" in the Math Section from the Blue Book. Strategies In the Essay Section, the strategies are spelled out clearly. For example, he recommends that one takes a position for or against the Thesis spelled out in the question. Then you divide the Essay in five sections...when you buy the book you will see for yourself. Knowledge related to the types of questions and their patterns. Anybody who knows Music will tell you, chords and theories are made from patterns (think of the Cycle of Fifth for example). Michael does the same thing in the Black Book. In the Reading Section for example, he demonstrates how the right answer is always in the body of the text. As a trained teacher and a CPA, I live in Toronto, Canada, I bought the Black Book and the Blue Book from the College Board in order to train my daughter for the PSAT and the SAT. Being hands on, I read and applied all the instructions from the Black Book as a test drive before passing the knowledge to my daughter, the Black Book works like a charm. Using previous Tests from the Blue Book, my daughter consistently pulled between 2100-2300 in practice.
