## Synopsis

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

## Customer Reviews

Be Aware that this book is a reprint of a circa 1900 book. Thus, the reference in the title to "modern" refers to back then. The book is informative though and an interesting read for both its historical perspective and some applicable techniques.
