Customer Reviews

As for me the title is interested, simply because enjoys this type of science/biology material. This book was purchased someone that in college and they enjoyed it. Had everything in it that they needed to pass the semester. So, I had to give it a high grade.

It came even quicker than they said it would. That was a nice surprise.

I found the book to be mostly useful but not very culturally competent.

Just the right book I needed for my class in wonderful condition

Item was great...works perfect for what I needed very satisfied.

This book was in great condition, and very well used

Was shipped on time. Really been enjoying it.
