Financing Education In A Climate Of Change (10th Edition)

Synopsis

This classic text on school finance contains the most comprehensive and current information that affects school finance, including historical, economic, technological/mathematical, and legal points of view. This book is both scholarly and engaging, and is practical, easy-to-read and comprehend; appealing to a diverse audience of students, educational leaders, parents, and legislators. School finance is an evolving topic and this text, now in its Tenth Edition, continues to cover all current trends to provide readers with a firm knowledge of educational finance trends and issues that administrators need to understand. It serves as an excellent reference for both practitioners and academics.

Customer Reviews

This textbook has been a valuable tool in my Educational Leadership Master's program. It provides many explanations to issues and homework assignments. I will keep as a reference in my library as a future administrator. Book arrived within the allotted time frame.

I enjoyed this book, it was easy to read and contained important information. Being new to the road of principal-ship, it contained important accounting and budgeting information.

Apparently, this is the "go to" text on the subject of financing education. It is packed with information, but very, very dry. Good for insomniacs. :)

So far this has been an easy read book and everything that I have been assigned to read and

respond on has been in this book! Great Job!

Great price and very close to the latest edition. Saved me over 150.00 bucks!

This book is informative, easy to read and user-friendly. The arrangement of the text on the pages makes it easy to read section by section. There are no wasted words in this book, so there is no wasted time reading. It's a great resource for future use. I'm definitely keeping mine. G. Buermann, Middle School Principal

the best book i have read
